Registration/Account

Registration

Participation in the company's offer requires the player to register. To do this the player has to fill out correctly and completely the relevant application form containing the following details: first name and surname; place of residence; e-mail address; date of birth; gender; plus choose a player ID; choose a password, choose a private question and answer (this question is asked before real money is paid out or if, for example, the player has forgotten his password and asks for a new password).

On the company's request, the player is obliged to produce an official document showing his photo, proving his identity (a passport copy, driver's licence or identity card).

**After successful registration, an account will automatically be opened for the SCORETIME®, over which all stakes and winnings for real money will run.**

### Account

A player may hold only one account. Players already registered are not allowed to register as new players under another name or with another e-mail address. If a player violates this rule, the company is entitled to cancel any bets placed. In the event of a FREE BET scenario, Free Bet cards and Free Bet codes, each player may redeem only one Free Bet card or one Free Bet code per promotion.

In case of suspected manipulations or fraud, and in the case of any violation of these Terms and Conditions, in particular the multiple simultaneous participation in games and the opening of several accounts, the company may exclude the respective player from placing further bets and from participating in SCORETIME® games.

Any criminal or suspicious activities may be reported to the appropriate authorities. In such a case, the company will pay the player any real money balance in his betting account after deducting a handling charge of 10%, provided that this has been acquired in a lawful manner. Free Bets or winnings that may have resulted from Free Bets, which were not acquired in a lawful manner, will be void.

The player may cancel his/her newsletter subscription and other marketing and promotional e-mails, which are sent to him by the company, at any time. This can be achieved under "My account / Settings: General". Please note, that due to administrative reasons, it could take up to 24 hours for this request to be processed.

If a player has unregistered of his/her own accord, the player may, for technical reasons, continue to receive marketing promotions for up to 30 days after unregistering. In this case, related bonuses or other vouchers will become invalid and are not credited/redeemed to the player's account. If the account is reactivated again later on, these bonuses remain invalid and can therefore not be credited or redeemed retroactively.

Inactive Accounts will be charged an administrative fee (the "Inactive Account Fee") in the amount of EUR 5\* per month. SCORETIME® will deduct the Inactive Account Fee from the player's account balance beginning at the end of the month the account has become an Inactive Account and then at the end of every following month, until the account balance is zero. SCORETIME® is entitled to change the Inactive Account Fee from time to time.

c) SCORETIME® will stop deducting the Inactive Account Fee from the SCORETIME®'s account balance if the account balance is zero or if the account is re-activated by placing a bet with real money or playing in the area of Poker, Casino or Games with real money.

d) If the account balance is zero and the player account is inactive for a period of eighteen consecutive calendar months, SCORETIME® is entitled to close the account.

### **Betting with real money**

Participation in betting and gaming with real money requires that the player has paid real money into his betting account or received a credit balance on his account from marketing promotions. Betting or gaming stakes can only be effectively placed if the balance on the SCORETIME®'s account as a minimum covers the stake.

### **Match or Price Rigging**

SCORETIME® is applying to be a member of the European Sports Security Association ("ESSA"), a non-profit making organisation that monitors irregular betting patterns and possible instances of event manipulation. As part of that membership, SCORETIME® is a full participant in its early warning system which is geared towards identifying any such betting behaviour.

In the event of a warning being received by SCORETIME®, SCORETIME® withholds the right, in its absolute discretion, to:

suspend the offering of any event or series of events in any of its markets; and delay and/or

withhold payment on any event or series of events in any of its markets, until the integrity of such event or series of events has been confirmed by the relevant sports federation via ESSA.

Further, in the case of active event manipulation being confirmed as having taken place on any event or series of events by ESSA, acting in conjunction with the appropriate sports governing bodies, SCORETIME® withholds the right, in its absolute discretion, to suspend any bets placed on such events, either by any individual identified by ESSA as having possessed insider betting knowledge or information or by any other individual who in the reasonable opinion of SCORETIME® is connected to, acting in conjunction with or in any way involved with such individual.

### **Currency**

At present, betting or gaming stakes can be placed or concluded in the following currencies: EUR, CHF, USD, GBP, DKK, SEK, NOK, PLN, CZK, HUF, YTL, HRK, RON, RUB, EEK, LVL, LTL, BGN. The company reserves the right to suspend the placing or concluding of betting or gaming stakes respectively in certain currencies and to pay the balance in their favour in the corresponding currencies to the player.

So as to assure the highest accuracy all bets and results, as well as the exchange of real money into credits, these are calculated using four decimal points and these values are saved in the databank. This method is utilized for all monetary calculations. Due to technical reasons a SCORETIME®'s account balance can only be displayed with two decimal points in his/her account. This may, however, sometimes lead to discrepancies when a value with four decimal points is rounded off to a value with two decimal points. In this case the true value always takes preference over the value with two decimal points. When purchasing credits or with other game transactions, an exchange from your account currency into another shall be carried out using a Euro reference exchange rate. This rate will be updated at regular intervals.

### **Payment methods**

The payment options available depend on your country of origin and currency chosen upon registration. For a complete list of the payment methods available in your country, please check the Deposits/Withdrawals page on the SCORETIME® site.

For information about deposit and withdrawal limits for payment methods available in your country, and for your chosen currency, please check the Deposits/Withdrawals page on the SCORETIME® site or the payment selection page in your account, in the Deposits/Withdrawals section. The company reserves the right to modify these limits, temporarily or permanently.

The company reserves the right to charge a handling fee for any transaction made. Any handling fee - if applicable - will be billed to the respective player during the course of the transaction. For complete information about current handling fees applicable to all payment methods available in your country, please check the Deposits/Withdrawals page on the SCORETIME® site or the payment selection page in your account, in the Deposits/Withdrawals section.

### **Deposit limits**

Each player can view their current deposit limits in their account. The company reserves the right to check and, if necessary, change these limits at any time. Winnings paid out of a SCORETIME®'s account can be considered when determining a personal limit, where the permitted deposit amount will be increased by the sum of all withdrawals made over the previous 30 days. Players are also able to reduce the standard deposit limit. In this case, the deposit limit is set by the player and can be reversed if necessary. Furthermore, it is also possible for SCORETIME®s, in cooperation with the company, to agree upon a personal deposit limit which is above the standard deposit limit. In this case, however, the company reserves the right to reduce this limit back to the standard deposit limit at any time.

### **Account credits**

The player may at any time freely use the balance on his account in his favour - deducting any stakes for current bets and/or games. Winnings are credited to the betting account and can be used to place other bets or play further games. On the player's request, winnings from the balance on the betting account may also be remitted immediately, in whole, or in part to an account indicated by the player and held by the holder.

If any funds are credited to a player's account by mistake, it is the player's responsibility to inform the company immediately. Any future winning bets that may occur directly or indirectly as a result of such credit shall be void, regardless of any delay in notification of the error. If the funds erroneously credited are subsequently withdrawn or placed on losing bets, the company reserves the right to recover any amounts due.

If deposits made are not used for the sole purpose of gaming or wagering, the company – particularly in the case where there is a suspicion of abuse – reserves the right to cancel the respective deposits in part or in full and to retract any costs that may have resulted in conjunction herewith.

The company reserves the right to verify a player's in payment in the fight against credit card fraud, and may also go to such lengths as to request copies of the respective credit cards used.

If, for technical reasons, a deposit onto the player's account overlaps with the closure of the account at the player's initiative or by the company, this circumstance will be pointed out to the player and the player will be requested to provide account details in order to ensure the immediate return payment of the full amount (less any charges incurred).

### **Free Bets/marketing bonuses**

All Free Bets, gaming vouchers and marketing bonuses issued by the company can only be used for betting or gaming and may not be transferred or paid out.

All Free Bets, gaming vouchers and marketing bonuses issued by the company must be redeemed at the latest two months after their transfer to betting accounts and placed in total on one or more bets, or else the company reserves the right to make the bonus credits retroactive (by cancelling or debiting them from the account).

All marketing bonuses shall remain the property of the company until the player has used it to place a bet or play a game at least once, or as specified in the respective promotion. Should the player request a payout before this condition has been met, it will not be performed.

SCORETIME® reserves the right to cancel marketing promotions at any time without prior notice. Only one Free Bet, gaming voucher or marketing bonus may be redeemed per person with an interval of 60 days between each execution. It is possible to redeem another Free Bet, gaming voucher or marketing bonus only when this time limit has been met. The company reserves the right to withhold any winnings that may be a result of a bet placed with a Free Bet, gaming voucher or marketing bonus that was redeemed prior to the personal 60-day limit.

In cash-in bonus promotions (cash-in bonus = credits on money already paid in) the amount paid in, as well as the subsequently credited bonus, is to be placed or played on one or more bets or games within two months at least once or several times, if permitted by the promotion in question, before a payout can be transacted.

Free Bets, gaming vouchers and marketing bonuses may be used exclusively for betting on the respective website of the company which it was issued by. Please note that it is prohibited to transfer free bets, gaming vouchers or marketing bonuses to another product or website operated by the company.

Free Bets, gaming vouchers and marketing bonuses that are subject to the fulfillment of other conditions (e.g. referral of new SCORETIME®s) and would only be credited to the account once these conditions have been met, will not be credited to the account if the player has unregistered or has been excluded by the company in the meantime.

### **Paying out**

Before the first withdrawal of a real money credit balance from a betting account, the player must send a complete and legible copy of an official document showing his photo, proving his identity. With this copy of the official document, the company will check the personal data during registration (in particular the name and the date of birth). In case of discrepancies, the bets placed by the player will be cancelled and winnings will not be paid out to the SCORETIME®, unless the player proves his right to the balance on his betting account in another way. If it turns out that a player has opened several accounts, the company may refuse the payment of balances on these accounts (with the exception of the legitimately acquired balance - less a handling fee of 10% on the account first opened).

Members of groups of players must regulate their legal relationships exclusively amongst themselves. The payment of winnings will only be effected in the name of the respective account holder.

The player agrees to disclose information related to his/her bank account, from which the bets would be made. The player agrees that this information may be used by the company for the purpose of transferring money back to the player.

The company reserves the right to change the payment method in individual cases (e.g. by issuing refunds to credit cards).

**SCORETIME® may not be held liable for any changes to payout amounts as a result of exchange rates.**

All bank transfer payouts in EUR within the SEPA region will be performed according to the SEPA criteria. This means that both the remitter and the receiver should be charged regular domestic fees for the transaction by their respective banks (no foreign transfer fees), even if the transfer is taking place between two different countries (within the SEPA region). For all other transfers SCORETIME® assumes until further notice all bank charges for the first withdrawal per calendar month and for all further withdrawal requests in that month, if they are equivalent to at least EUR 1,000. For further withdrawals in the same month equivalent to less than EUR 1,000, all the arising bank charges will be at your expense.

### **Account access**

In order to access the betting account, the code chosen by the player in the course of opening the account (player ID and password) is needed. The company assumes no responsibility for misuse of a betting account, if unauthorised persons use the player ID and password. Player ID and password must be treated strictly confidential. All movements in the betting account resulting from the use of the player ID and the password fall under the responsibility of the betting account holder.

### **Account complaints**

Complaints against account statements and the balances shown in them must be made within 14 days after the account balance becomes available on the company's website (via e-mail to the respective support). A failure to make such a complaint is deemed to be an agreement to the mentioned account balance. The complaint must be in writing.
